

EXLIM Q

Surge Arrester - System Voltage 2 to 420 kV

ABB

Metal Oxide Surge Arrester EXLIM Q

Protection of switchgear, transformers and other equipment in high voltage systems against atmospheric and switching overvoltages. For use when requirements of lightning intensity, energy capability and pollution are moderate.

Application

The Exlim Q gapless metal oxide arrester meets or exceeds all Station Class requirements of ANSI C62.11 (IEEE Standards for Metal Oxide Surge Arresters for AC Power Circuits). The EXLIM Q arrester is designed to meet the following performance data:

Performance data
